Maintenance of cemeteries – Repair of two stones at Lowell Lake. Glued together (with epoxy). Mowing continues.

Maureen brings up stones leaning on the wall at Middletown, some of the initials match the names of some of the folks buried there. The feeling is that they will be better cared for if they are actually in the cemetery and not just leaning against the wall. Maureen and Duane to investigate in the fall.

Duane will reach out to the state (again) regarding the big pines along Old Stowell Hill (Riverside).

Lettering (dates) of headstones is discussed. There is a person in NY State who will do lettering, if we have a significant number to be done.

Maureen and Duane to check map to determine name of couple who are in need of headstone. (Maureen to all Shea and order)
