You don't often get email from susanegcollins@gmail.com. [Learn why this is important](#)

Dear Aileen

We now have confirmation from the Squires, owners of the SoLo Post Office confirming that they are happy to work with the Community Fund.

We will go back to them requesting something more formal which Preservation Trust will want to see, but if the email below suffices, we would be grateful for the SB's support letter.

Kind regards
Susan

Good Afternoon Elsie,

Thanks for getting in touch with my wife and I about the Village Trust Initiative Grant and you and your group's idea of applying for grant money to restore the post office building in South Londonderry. After looking at the material you sent us about the potential project, Diane and I would like nothing better than to see the building put to use for the people of your community. If you decide to move on this, just let us know what we need to do. We would need to keep the building off the market and as I mentioned to you when we talked. The insurance is coming due shortly and an unoccupied building should have fire and liability insurance at a minimum. We thought it might be less expensive for the project if it could be added as a rider to the policy the town may have on its buildings. Regardless, we will be in Mt Holly the last week of September

and the first 10 days of October to enjoy the fall leaves and we would love to meet with you during that time should the project take hold.

Best regards,
Dick and Diane Squires
